Summary

- **.NET Full Stack (Angular) Developer with 4.6 years** of experience in designing, developing, and maintaining web applications using ASP.NET MVC, .NET Core, C#, Web API, Entity Framework, and SQL Server.
- Proficient in front-end technologies like Angular, JavaScript, HTML, and CSS.
- Proficient in requirement analysis, database design, API integration, and end-to-end application development.
- Skilled in working independently and collaboratively in agile environments to deliver high-quality software solutions.

Skills

Frontend: HTML5, CSS3, Javascript, Angular, Telerik UI for Angular, Telerik UI for ASP.NET MVC

Backend: C#, ASP.NET MVC, ASP.NET Core, MS SQL Server, Entity Framework Core, LINQ, xUnit, REST API

Cloud: Microsoft Azure: Fundamental

Tools: Postman, GitHub, Docker, RabbitMQ

Work Experience

Pace Wisdom Solution, Bangalore Aug 2021 – Feb 2026

- Collaborated closely with the client's CTO and product team to gather requirements, delivering tailored solutions that reduced development time by 20% and drove a marked increase in client satisfaction.
- Independently developed a dynamic survey feature that was used by approximately 1000 users, successfully meeting all client requirements.
- Led a team of five, assigning tasks based on complexity and motivating the team to complete assignments ahead of deadlines.
- Contributed to 6 cross-functional projects under one client switching between frontend and backend.
- Migrated the project from plain HTML grid UI to Telerik Kendo ASP.NET MVC UI, enhancing user experience and increasing user engagement by 25%.
- Implemented AJAX data binding with Telerik Kendo, boosting website performance by 30%, reducing load times, and improving user interaction efficiency.
- Served as a technical panelist in college placement drives, assessing candidate's technical skills and aiding in recruitment decisions.

Awards & Certificates

- Star Performer for the month (Jan 2023)
- Microsoft Certified: Azure Fundamentals
- OCI 2024 GenAI Certified professional

Projects

PVantage

PVantage is a platform for integrating, analyzing, and visualizing data from uploaded reports, enabling data-driven insights and streamlined reporting.

Tech Stack: .Net Fullstack (.Net web API + Angular), HTML, CSS, Angular Material, Kendo UI, ASP.Net Web API, Azure function, Azure Storage, SFTP Server.

- Developed a dynamic script upload feature, enabling validation and report generation tailored to customizable settings, enhancing flexibility and accuracy in data handling.
- Designed and implemented a feature to convert uploaded PDF files to XML format and securely transfer them to an SFTP server, optimizing file processing and storage.

MDMS

MDMS is an internal employment management system designed to streamline employee data management and optimize HR workflows.

Tech Stack: ASP.Net MVC, HTML, CSS, Javascript, JQuery, ASP.Net MVC, Bootstrap, LINQ, Entity framework, Kendo UI, MS SQL Server, Azure function, Microsoft Entra ID.

- **Migrated the project from plain HTML grid UI to Telerik Kendo ASP.NET MVC UI**, enhancing user experience and increasing user engagement by 25%.
- Implemented AJAX data binding with Telerik Kendo, boosting website performance by 30%, reducing load times, and improving user interaction efficiency.
- **Independently developed a dynamic survey feature** that was used by approximately 1000 users, successfully meeting all client requirements.
- Implemented Single Sign-On (SSO) functionality using Microsoft Entra ID, enhancing secure and seamless user authentication across application.
- Developed a dynamic email template system allowing administrators to customize email templates and send them to specific recipients, enhancing communication flexibility and personalization.

Esko

Esko is a global provider of integrated software and hardware solutions that accelerate the go-to-market process of packaged goods.

Tech Stack: ASP.Net Core API 9, Access DB.

- **Independently migrated a legacy VB.Net codebase to a modern web application** using ASP.NET Core 9 Web API as the backend framework.
- Integrated Salesforce API for data synchronization and utilized Microsoft Access Database to retrieve and manage data.

Education

Mangalore Institute of Technology & Engineering Aug 2017 – Jul 2021

B.E. in Electronics and Communication Engineering **CGPA:** 7.87/10
